New AFX Cars

AFX have released some details of its latest products:

"Ford GT excitement. Here is the latest iteration of the new AFX Ford GT. This is a 3D printed prototype, so still a bit rough, needs a few under wing areas opened. Need something to race against the new Ford GT? How about a Lamborghini Huracan. Not quite finished 3D drawings, but very close. We hope to have prototypes to show in a week or so. This and the Ford GT will come in a new "Super" set."

More details of our events are available on the website and on our Facebook Page.
